

# ALUMINIUM COIL ANNEALING FURNACES

# ALUMINIUM COIL ANNEALING FURNACES

Sistem Teknik offers Aluminum Coil Annealing Furnaces according to the customer demands which is mainly dependent on the existing place, capacity concerns & the alloys produced.

State of art design results high temperature homogeneity, easy handling by charging car, inert gas atmosphere resulting down to 0,1% of O<sub>2</sub> concentration, double door sealing, gas or electrical heating radiant tubes, specialised PLC control systems and incorporated SCADA systems.

Sistem Teknik is also offering combined cooling systems under protective atmosphere with water/gas or air/gas heat exchangers.

We are continuously developing our operation system, Furnace smart software learning and studying the furnace, in order to decrease proses time and energy consumption.
